APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 56923 is issued subject to the terms and conditions imposed in said Permit 56923 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 50464, Certificate 13113; 50465, Certificate 13114; 62274, 62275 and 63865 shall not exceed 68.0 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 26.0 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

February 11, 1999

Proof of completion of work shall be filed before:

March 11, 1999

Application of water to beneficial use shall be filed on or before:

February 11, 2000

Proof of the application of water to beneficial use shall be filed on or before:

March 11, 2000

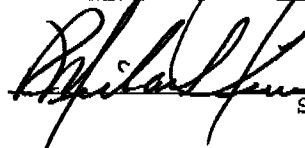

Map in support of proof of beneficial use shall be filed on or before:

**Item 15 - Remarks**

Sierra Stone, dba All-lite Aggregate leases the land at Washington Mountain from the permittee. They have continually encountered problems with well production. The well under Permit 56923 has failed to the point that it is no longer of any use and production in the well under Permits 62274 and 62275 has dropped by more than 50 percent.

This application proposes to move water into another well site located northwest of wells under Permits 56923, 62274 and 62275. The proposed place of use does not change due to the reduction in the place of use under Permit 56923 as outlined in the June 27, 1996 letter to the State Engineer. Please use map on file under Application 56923 to support the existing point of diversion.
